

Our Control Room contains professional-level editing software and hardware, including two Slate VRS8 audio interfaces.

Our Live Room offers a variety of dynamic and condenser mics, available for recording in a customizable, sound-sensitive space.

## ORIENTATION

Learn how the 970West Studio can help you realize your project. Studio Orientation is available twice per month; the current schedule is available online. Attending a Studio Orientation session is required to make your first reservation. You must be 16 or older to reserve the space.

# CLASSES

Studio orientation sessions and classes in audio, photography, video production, and editing are offered frequently. The current class schedule is available online.

## Audio Alchemy

Attend an Audio Alchemy session and explore some experimental soundscapes with us! Basic knowledge of Mac OS is strongly recommended.

## Art Digitization

Learn how to digitize your art to create high-resolution photos of your artwork.

## Beat Makers Workshop

This open workshop is a chance for producers to use Logic Pro, along with a MIDI controller, to hone their beat-making skills.

## Digital Illustration with Photoshop

This introductory class covers the Photoshop workspace and basic tools.

## Digital Photography

This is an introductory class into the world of DSLR photography.

## Fundamental Audio Concepts

Learn about the fundamentals of modern sound recording.

## Intro to Green Screen and Chroma Key

Learn the methods used to remove a video's background and replace it with a different image.

## Introduction to Podcasting

Basic concepts of what a podcast is, how it is delivered and how to get it on Apple Music, Spotify and Google Play Store will be covered.

## Introduction to Video Editing

Learn the fundamentals of video editing using Adobe Premiere, a program included in the Adobe Creative Cloud.

## Mac OS Basics

In this class, learn the basics of Mac OS.

## Portrait Photography

This class covers the basics of in-studio portrait photography. Basic DSLR skills are a prerequisite.

## Pro Tools Recording

In this class we explore Pro Tools, the industry standard audio DAW (digital audio workstation).

## Studio Q&A

Explore the 970West Studio as we offer Orientations and have staff available to answer your multimedia production questions. Assistance is offered on a first-come, first-served basis.

---

Choose from a variety of lenses to pair with our cameras and lights for use in the studio. For offsite use, camera kits are available for checkout at the Central Library after you attend a digital photography class. A current equipment list is available online.
